PROFESSIONAL EXPERIENCE

MICROSOFT COSTA RICA
2015 - Present

Technical Evangelist

-October 2015 I organized and lead the project "Yo Puedo Programar" where we tought more than 930 children how to program in MS Touch Develop.
-I currently supervise and coach MS Student Partners in Costa Rica, which act as Microsoft ambassadors and take technologies to their communities.
-November 2015, I was chosen to adress to the MS Partner Community through the event Partner Connected, in which I showed the technical advantages of Windows 10.
-I act as the main promoter of Microsoft Azure for students of all universities and technical high schools in Costa Rica, where I have successfully tought more than 500 students and professors how to make the most of MS Azure's advantages for developers.
-2016 I organized and lead MS Imagine Cup Costa Rica, which is a global student technology competition that provides opportunities for students of all disciplines to team up and use their creativity to create applications and solutions to improve the way we live. I recruited teams, sponsors, gave technical and business coaching to student teams and lead them in the process of developing their ideas.

UNIVERSIDAD DE COSTA RICA
2014-Present

Technical Assistant

-I participated in the development of a web platform to automate the storage and distribution of student materials for the Mathematics School of Universidad de Costa Rica.
-I currently act as the DBA of Oracle and SQL Server for students of the Database II course at the Computer Science Engineering Career.
-Assistant and coach for the Project Administration and Software Engineering courses where students learn to develop their software projects through Scrum, Visual Studio, SQL Server, and Oracle tools.

EDUCATION

UNIVERSIDAD DE COSTA RICA
